

Active System Integration

OP 6000 - USB Optical Sensor

Product Description

The user simply places their fingerprint on the glowing reader window, and the reader quickly and automatically scans the fingerprint. On-board electronics calibrate the reader and encrypt the scanned data before sending it over the USB interface.

Technical Specification

- Communications: USB
- Resolution :500 DPI
- Temperature : 0°C - 45°C
- Operating Humidity : 20%-80%
- Application : Security for PCs and networks ,E-commerce ,Banking and financial system security
